## HOW TO MAKE HOMEMADE LEMONADE

1

### CUT & JUICE:

Cut and juice the lemons using a citrus juicer or by squeezing them by hand. ♥

2

### STRAIN:

Strain the lemon juice into a pitcher to remove any seeds and excess pulp. ♥

3

### SWEETEN:

Dissolve the sugar by stirring it into the fresh lemon juice until fully combined. ♥

4

### ADD WATER:

Add 8 cups of water to the lemon syrup, mix well. ♥

5

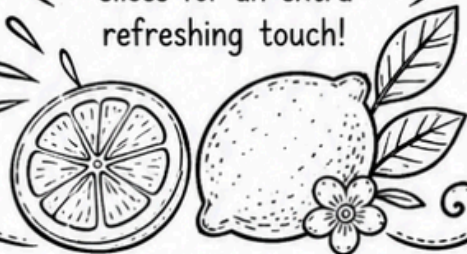

### CHILL & SERVE:

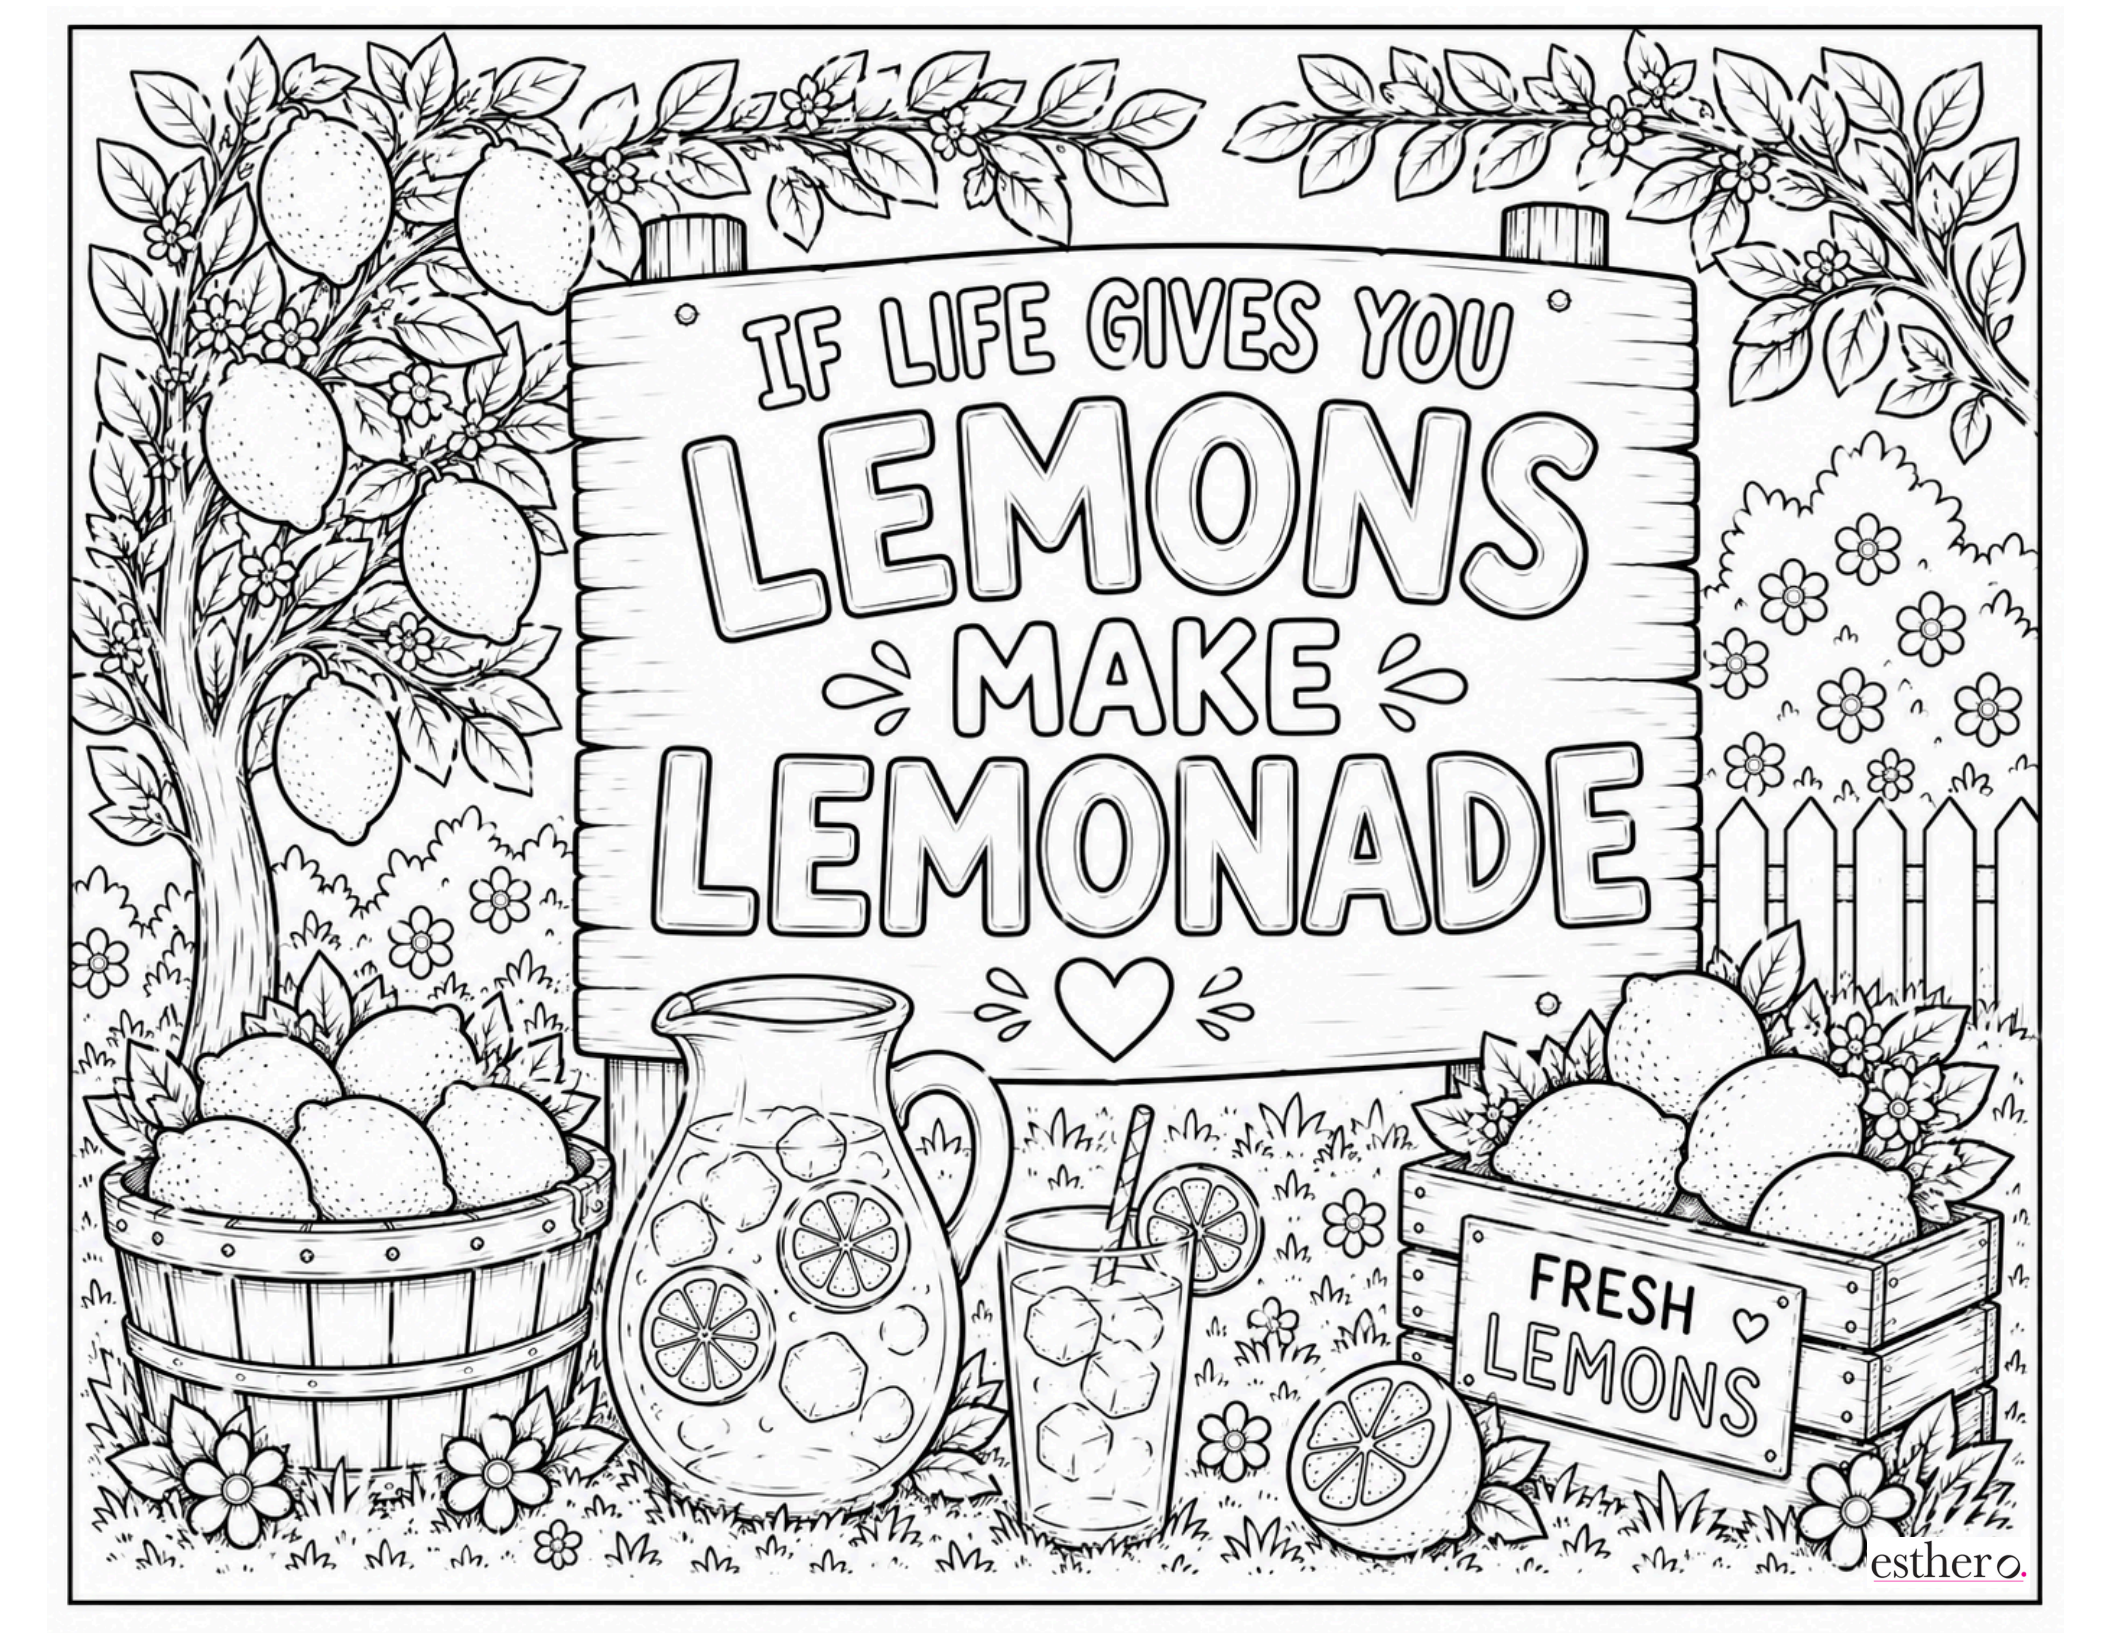

Chill and serve over ice. Enjoy! ♥

### NOTE:

Taste and adjust the lemonade as needed by adding a little more sugar for sweetness or water to mellow the tartness.

— ♥ —  
Serve over ice with fresh lemon slices for an extra refreshing touch!
